At home this Summer

Don't take the summer "off!" Summer time is a very crucial time for a school age child. Children can lose a lot of knowledge that they have learned throughout the school year. Continue to work with your children throughout the summer. Encourage letter learning and beginning reading for those who are able. Incorporate some of the literacy at home activities we have included in past newsletters. READ to your child and have them read also. If your child likes to play a tablet, find some educational games they can play also. The more you can do with your child over the summer, the less knowledge they lose and the better next year will be for them! Talk to the teachers if you need some ideas of fun things to do over the summer!
